

## **MISSION ARCHERY LAUNCHES INNOVATIVE MXB-SNIPEr LITE CROSSBOW FOR \$599**

**Sparta, Wisconsin (December 8, 2014)** – The new MXB-Sniper Lite™ is an incredibly easy to cock crossbow that weighs in under 6 lbs and is designed for unparalleled balance and accuracy.

Featuring our new SyncCam™ and patent pending Smart Guide™ Cable Slide, the MXB-Sniper Lite™ offers an ultra-smooth draw cycle for easy cocking and precision cam synchronization that self-centers at full draw. This innovative design results in a user-friendly system that produces consistent nock splitting accuracy. The patent pending Smart Guide™ Cable Slide alleviates down pressure on the cable and the cams, which results in less torque within the cam system and enhances both durability and accuracy.

The [MXB-Sniper Lite™](#) comes standard with a two-tone stealth concealment package for \$599.

### **MXB-Sniper Lite™ Specifications:**
